I think Lisa wants to be left out of this, but this is a problem, along with all of the beautiful flower trees.

Subject: Trash on Sepulveda Sidewalk Near your Office!

Hi Karen and Miki!

So, I went to get yogurt last night at that great place in the Ralphs shopping plaza, near your offices, and I noticed all this trash swirling on the sidewalk outside of Chase Bank and Tuesday Morning (see attached photos). My guess is that it came from the open trash container by the Metro bus stop.

BTW, this is a real issue with me, our feeling at the Friends is that ALL trash cans throughout LA should be covered with lids.

Can you put some pressure on Mike Bonin's office regarding this?

As a side story, I have worked with Mike's field deputies in the past at one of the worst corners in the city, Culver Boulevard and Inglewood Avenue (in front of the Parrish Church), and the solution, after I complained repeatedly about trash everywhere (ending up in the gutter and nearby storm drain) was they took the trash can away! As far as I'm concerned they didn't solve the problem, they compounded it. Found out it's a Culver City bus stop, not a Metro, or vice versa, and they were "pulling back" on providing those kinds of services. Bullcrap!

Please help us send a message about this. Otherwise, the Friends volunteers may be picking this trash up along Ballona Creek one of these days, if it slips in the storm drain nearby on Sepulveda.

Thank you, ladies!

Lisa 😊
